# Milestone 3

Team members: Ksenia Lepikhina, Luke Myers, Noel Taterway, Andres Barrera, Peter Lindee
Team: Hooli XYZ

ER Diagram

A brief explanation of the tables:
- Login: Contains successful or failed login attempts
  - Used for blocking users/IP's after ~5 failed login attempts
- User: Contains user login information with salt (for encrypting password) and encrypted password stored
- Whitelist: Contains users who have been whitelisted (successful login)
- Folder: Contains folders ("repos") for users
- Files: Contains files in folders
- UserFolder (Associative Entity)
  - There was a many to many relationship so this table was created to resolve it

** Note: Model is to be read clockwise
